

Alternative Vehicles

Thousands of light- and heavy-duty alternative fuel and advanced technology vehicles are on U.S. highways today. Some of these alternative vehicles include:

- Hybrid electric vehicles,
- Plug-in electric vehicles,
- Flexible fuel vehicles,
- Natural gas vehicles, and
- Propane vehicles.

For more information about these alternative options visit the links on the left, or learn more at the U.S. Department of Energy's Alternative Fuels & Advanced Vehicle Data Center: <http://www.eere.energy.gov/afdc/vehicles/index.html>
